# BAKERS TAKE PLEDGE TO AID WHEAT USERS

#### Committee Named to Cooperate with Breadmakers in Waste Prevention.

Washington bakers, ulder the di rection and supervision of the Food Administration, have organized a committee of inspection and ec-op-eration. Preventing the waste of wheat from a lack of knowledge as to how to use cereals, or by unnec-essary experiments or by not under-standing the rules of the Food Ad-ministration, will be the main ob-

jects of the organisation.

The organization was perfected at a meeting yesterday afternoon in the office of Clarence R. Wilson, District food administrator. A preliminary meeting was held Saturday after-neon at the Continental Hotel, and for the purpose of mapping out a campaign the bakers will meet again tomorrow evening at the Continental. Work or instructing bakers in Washington is to be done under the supervision of seven captains, and as many lieutenants as they think are needed. The captains announced yesterday are: L. S. Ulman, P. M. Dorsch, William Berens, John G. Meinberg, K. W. Corby, A. W. Felka and W. H. Young.

Each of the captains took the fol-

owing pledge:

lowing pledge:
"I do hereby pledge myself and
my firm or company to do all in my
power to make it possible for all
bakers to meet the emergency we face because of the shortage of wheat. Therefore, I do agree:
"That I will give to any baker any formula or best method I know of for making bread, using a percentage of cereals other than wheat;

to any baker by actual practice in my shop or, when possible, in his shop; and "That I will encourage practical emonstrations in our community to bakers collectively so each and every baker may save his full quota of wheat flour for our soldiers." Win M. Campbell, of Kansas City,

Mo. chairman of the plan of the National Bakers' Service Committee, addressed the bakers yesterday, and Mr. Wilson spoke at the meeting yesterday and Saturday.

#### Jersey Town Predicts Bumper Fruit Crop

Glassboro, N. J., April 15-A bumper Glassboro, N. J., April 15—A bumper fruit crop for the coming season seems to have been assured by the ideal spring weather, which has brought along a slow, normal development of the big peach and apple orchards in southern New Jersey. There have been none of the winter "flare-backs" so far which have caused the fruit growers so much alarm in some seasons.
